SUMMARY

SDET / QA Automation Engineer with 5+ years of software engineering experience, including 4+ years specializing in Python- and Java-based test automation for REST APIs and cloud-native microservices. Independently built automation frameworks from scratch for 10+ backend microservices — spanning messaging, IoT, multi-cloud data pipelines, and security — achieving 95%+ automated test coverage, including complex edge-case scenarios, with full CI/CD integration across Jenkins and GitHub Actions. Experienced across the full QA lifecycle within Agile/Scrum teams, plus production monitoring/on-call support for live systems.

TECHNICAL SKILLS

Languages: Python, Java, Groovy, Scala, HTML

Test Frameworks: PyTest, TestNG, NoseTest, Selenium, Playwright, REST Assured

API & Load Testing Tools: REST API Testing, Postman, Swagger, SOAP UI, Locust

CI/CD & DevOps: Jenkins, GitHub Actions, Docker, Kubernetes, Maven, Nexus Repository, Git, RunDeck

Cloud & Messaging: AWS (S3, Lambda, EMR, CloudWatch, Kinesis, KMS), GCP (Dataproc, GCS – basic), Kafka, Confluent, Azure EventHub, MQTT (HiveMQ), APNS, FCM

Databases & Caching: MySQL, PostgreSQL, Cassandra, OpenSearch, Redis

Monitoring & Observability: Grafana, New Relic, Coralogix, Site24x7, OpsGenie

Project & Process: JIRA, Confluence, Agile/Scrum

Domain Expertise: IoT, Backend Microservices Test Automation, Multi-Cloud Data Pipeline Testing, AuthN/Authorization Testing (JWT, ACL), DevOps Integration

EXPERIENCE

Software Development Engineer in Test (SDET) — *Dec. 2021 – Present*
Ayla Networks — *Bangalore, India*

- Built REST API test automation frameworks from scratch in Python (PyTest, NoseTest) and Java (TestNG, REST Assured) for 10+ backend microservices — Metering, Messaging (APNS/FCM/SMS/Email/EventHub/Kinesis), Full-OTA, IoT Command Center, Data Search, Rules-Action Engine, Message History, AuthN, ACL, and MQTT — achieving 95%+ automated coverage, including complex edge-case and negative-path scenarios.
- Built and maintained CI/CD pipelines in Jenkins and GitHub Actions across all 10+ automated services for nightly regression execution, automated reporting, and failure tracking.
- Tested multi-cloud data pipelines for the Metering service spanning AWS (S3, Lambda, EMR, CloudWatch, Kinesis) and GCP (Dataproc, GCS), backed by Kafka and OpenSearch.
- Validated security-critical flows for AuthN (JWT generation/validation, KMS, Redis) and ACL services, plus MQTT-based device messaging (HiveMQ, Kafka).
- Used Kubernetes for service validation, deployment verification, and environment management ahead of releases; participated in UAT deployments, pre-release validation, and production support.
- Managed test plans, QA documentation, and defect tracking in JIRA and Confluence within an Agile/Scrum team, driving timely resolution.
- Monitored performance and live incidents using New Relic, Grafana, Coralogix, OpsGenie, and Site24x7; supported on-call rotations and APM troubleshooting for production issues.
- Extended test coverage beyond APIs with Selenium/Playwright UI validation and end-device testing on iOS and FCM (push notification) platforms.

Full Stack Developer — *Jan. 2021 – Dec. 2021*
PrajwalRaj IT Solutions Pvt. Ltd. — *Bangalore, India*

- Designed and developed web applications and internal office automation tools, building front-end components in HTML, CSS, and JavaScript with back-end logic in Python and Java.
- Managed MySQL databases, implementing data-correction mechanisms and automated maintenance tasks to ensure data accuracy and availability.
- Developed and enhanced e-commerce features, integrating secure payment gateways and optimizing UX.
- Collaborated with cross-functional teams across the full SDLC — requirements gathering, design, development, code review, and deployment — ensuring on-time, quality releases.

EDUCATION

International Institute of Information Technology Bangalore (IIIT-B) — *Bangalore, India*
Executive Diploma in Machine Learning & AI (MLOps & Generative AI Specialization) — *Aug. 2025 – Present*

Tumkur University — *Tumkur, Karnataka*
Bachelor of Computer Applications — *Aug. 2016 – Dec. 2020*

CERTIFICATIONS

AWS Certified Solutions Architect – Associate
